

POINT OF SALE (POS)

TOSHIBA TCxWAVE

As the **world's leading provider** of Point of Sale (POS) solutions, **Toshiba Global Commerce Solutions** presents the **TCxWave**, which is a new breed of retail system created to give retailers the freedom to use one platform for multiple purposes throughout the store. TCxWave has the flexibility, performance and distinctive design that global retailers have come to trust from the team that continues to produce the Number 1 store solutions in the industry.

SPECIFICATIONS:

PROCESSOR: Intel Celeron 3955U (2GHz)
STORAGE: 64GB SSD
MEMORY: 4GB RAM (up to 8GB)
DISPLAY: 15" LED back-lit LCD, widescreen, projected capacitive, antiglare, 10 point multi-touch
PORTS: 6 x USB, 2 x RJ45 / RS232, LAN, VGA
OS: WINDOWS 10 IoT Enterprise
BASE: Dockable base or counter-top stand

TCxWave delivers a unique and engaging experience for associates and customers that puts it in a class of its own. **Fully functional as a point-of-sale, kiosk or self-service unit**, the TCxWave can be positioned in most locations without fear of compromising the in-store experience. Developed by award-winning industrial designers, its striking appearance means retailers need no longer to hide the POS away in the back of the store but can position it proudly where it's needed most. Indeed, the **sleek design** of TCxWave means it can play a central role in delivering a consistent and positive brand image and experience throughout the whole store.

TCxWave can be customized with **15" or 18.5" touch screen**. It can be positioned either on **dockable base or on counter-top stand**. The powerful CPU processor and the SSD storage unit technology, ensure fast and reliable performance. Peripheral options consist of magnetic stripe card reader, iButton reader, customer display and speakers.
